PRODUCT TECHNICAL SHEET

Contalen_LDPE_100_1_transparent

PE-LD Compound

CONTALEN 0020

Description
LDPE compound from transparent packaging waste, industrial waste. Recycled pellets.

General data	
Application:	film blowing
Form / shape:	pellets / lenses
Filtration:	100 µ
Colour:	transparent

Packaging
Big Bag on non-returnable pallet Weight app.: 1060 kg per Big Bag Silo on request

Properties	
Melt flow index (DIN ISO 1133) at 190°C/2.16kg at 190°C/5kg	 0.18 (±0.05) g/10min 0.8 (±0.05) g/10min
Density (DIN ISO 1183-1)	0.918 (±2%) g/cm^3
Bulk density	≥ 0.48 kg/dm^3
Surface humidity	< 0.5%

Our products are manufactured with the utmost care and are subject to regular quality controls. Nevertheless, slight material variations can occur.

All data stated an our product information are average values and are based on our current knowledge and experience.
They do not release the user from careful examination when applying and using our products, due to the variety of possible influences.

Legally binding commitments of certain properties for precise applications cannot be made from our stipulations. Any property rights as well as existing laws and regulations are to be observed by the receiver respectively processor of our products, on individual responsibility.

Our products are not suitable for the application in the context of the act (EC) no. 282/2008. In the following, our general conditions of sale are valid.
